Plumbing and Piping Plan Design Guide - EdrawSoft

Plumbing riser or stack floor (not floor drains) penetration sleeves shall extend 50 mm [2 inches] above the floor and 1 inch [25 mm] below the floor and include a builtin water stop - and appropriate seal.

Plumbing Design Manual - Whole Building Design Guide

Plumbing Basics. Your home's supply and drainage system must always be two distinct subsystems, with no overlapping. At the fixtures (bridges between the two systems), the air admitted by the vent stack and vent pipes keeps the traps sealed and prevents sewer gases from backing up through the drains.

Plumbing Basics | HowStuffWorks

Fittings can be made of copper, brass, bronze, or plastic. The fitting will typically have a barbed or ribbed annular end. The PEX pipe slides over the barbed or ribbed annular section. Prior to making the connection, the metal crimp ring is slid over the PEX piping and away from the end of the pipe.
