Petroleum production systems - GBV

Lewis Energy Group (Lewis Petroleum Properties) is privately held E&P company based in Ecinal, TX. The company was an early pioneer in the Eagle Ford Shale. The company drilled the first Eagle Ford targeted well in 2002 and went on to further test the formation over the next several years.

Lewis Petroleum Properties - Eagle Ford Shale Play

Prior to joining Pathfinder Energy Services, Mr. Henkes worked in various field, operations, sales, management, and HR positions around the world from 1994 to 2012. Mr. Henkes has extensive experience in wireline, logging while drilling, and directional drilling operations in North America, Latin America, and northern Europe.

Executive Team | NexTier - NexTier Oilfield Solutions

Petroleum production, recovery of crude oil and, often, associated natural gas from Earth. Less dense than surrounding water, petroleum migrated up from its source beds through porous rock until it was blocked by

nonporous rock and trapped by geologic features caused by folding, faulting, and erosion of Earth's crust.
