Open Access Review - UK Research and Innovation

Open access (OA) is a set of principles and a range of practices through which research outputs are distributed online, free of cost or other access barriers.

Open access - Wikipedia

Access Free Research Open Access Identification And Analysis Of A

For the DEAL open access agreement for Germany, identification will happen at the point of acceptance. This means that if you have submitted your article under a BMC membership but publication happens in August 2020, or later, you will need to re-confirm your institutional affiliation at acceptance.
