The Hebrideans

The Hebrides are the source of much of Scottish Gaelic literature and Gaelic music. Today the economy of the islands is dependent on crofting, fishing, tourism, the oil industry, and renewable energy. The Hebrides have lower biodiversity than mainland Scotland, but there is a significant presence of seals and seabirds.

Hebrides - Wikipedia

Hebrides, group of islands extending in an arc off the Atlantic (west) coast of Scotland. They are subdivided into two groups—the Inner Hebrides to the east and the Outer Hebrides to the west—which are separated from each other by channels called the Minch and the Little Minch.

The Hebridean is a breed of small black sheep from Scotland, similar to other members of the Northern European short-tailed sheep group, having a short, triangular tail. They often have two pairs of horns. They were often formerly known as "St Kilda" sheep, although unlike Soay and Boreray sheep they are probably not in fact from the St Kilda archipelago.

most part, however, the New Hebrideans are closest in physical characteristics to the Solomon islanders. The hair is dark, deep grayish black and wooly, except areas of the group, particularly in the East, where Polynesian strains are more noticeable. The first European visitors to New Hebrides were navigators and explorers.
